

Dear FCC Chariman:

Over the last several years it has become apparent that the news media is no longer providing this great nation with news. All we hear about is hours of OJ and various accidents and murders. With the exception of coverage on Terrorism the media has failed greatly. They never report on itnernational affairs. Not even Ted Koppel can tell you who the heads of state are in most countries. This is attributable to the media anti trust violations. If we are to be the nation we once were our people must know what is going on. Now all anyone knows the the latest baseball score and where the latest Survivor show is taking place. Stop these MEDIA Mergers.

Thank you,

Susan Johnson
